1. State your topic in one or two sentences

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

2. Identify the main concepts (keywords) from your topic statement

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

3. Brainstorm for synonyms for each concept

<table>
<thead>
<tr>
<th>Concept 1</th>
<th>Concept 2</th>
<th>Concept 3</th>
</tr>
</thead>
<tbody>
<tr>
<td>E.g.: Youth, Adolescent</td>
<td>E.g.: Work, Employment</td>
<td>E.g.: Temporary, Part-time</td>
</tr>
</tbody>
</table>

4. Connect keywords together using Boolean (logical) operators

   **AND** finds both terms   **OR** finds either term

e.g. (youth OR adolescent) AND (work OR employment) AND (temporary OR part-time)

   Term: ___________________________   Code: ___________________________

   Term: ___________________________   Code: ___________________________

L Lowry (2012)
