Sample search topics for Session C

Look for scholarly articles and books on the topic you choose:

- Marijuana and its possible medicinal effects on diseases
- Racial bias in pain perception
- Due process and crime control models
- Canadian Navy in World War I
- Canada’s conflict between climate change action and economic dependence on extracting natural resources
- Structural barriers to reproductive health services in the Niagara region. I am looking for refereed journal articles on this topic, if not in Niagara then in Ontario, and if not in Ontario then in Canada.
- Violence, conflicts related to mining in South Africa
- People of colour and precarious employment

Homework:
Choose some of these to practice more keyword searches. You might imagine a reference interview context for them, or try to find different formats of materials (newspaper articles or videos instead of scholarly articles.)
